Keep Busy Here

Why should American boys fight in Viet Nam while ninety miles from our shore in Cuba, we allow the Soviets to bring in thousands of troops with arms? (I refer to an ar-

ticle in the May 10 Journal, "The Capital Letter," by Ruth Montgomery.)

Personally, I'd feel more secure at home if our boys were busy here ousting the Communists from all their high level government positions in our State Department, Central Intelligence, Defense Department and the United Nations!

Write your Congressman — maybe he's not Red!
